

NEW IN 2014

AVAILABLE SPRING 2014

Brass Knuckles Handle

Ergonomically shaped handle makes the arm easier to pull down.

Non-Pinching Trigger

Locking System

Lock rack to car and bike to rack with RockyMounts lock cores, sold separately (requires 2 lock cores).

Intricately Indexed Swing Arm

Positive ratcheting engagement allows finer increments for more secure bike holding.

Non-Corrosive Aluminum Pivot Arm

Easiest, most efficient swing arm to adjust for driver/passenger side installation.

Premium Aluminum Casting & Tray

Integrated Pivoting Arm

Provides you with the lowest profile and quietest upright mount. **Half the height of the competition.**

Stackable Contact Pads

Enables a level bike mount on crowned crossbars to balance your bicycle.

Patented Form Fitting Mounting Hardware

Fits all crossbars.

LOWEST PROFILE UPRIGHT BIKE MOUNT

BRASS KNUCKLES

MSRP \$199.95

THE BEST UPRIGHT BIKE MOUNT ON THE MARKET
