

EOLO III CO2 Inflation System

Designed by SILCA,
Manufactured in USA by SILCA

Threads onto Presta and Schrader Valves

Stainless Steel
Light Action
Precision Spring

DuPont Krytox
Cryogenic grease
will not freeze, stick
or leak during use

Proprietary Cartridge
Helmet protects cartridge
from puncture or thread
damage in seat bags and
toolboxes.

Ships w 2 Additional
Insulators for
customization as red-
white-blue or red-white
green themes

Recycled Linen Paper Labels
Insulate Better than Standard
and are optimized for
recyclability

Box Printed in USA on 100% recycled paper
Contains:
EOLO III Regulator + 2 Additional color insulators
+ 2 CO2 Cartridges + 1 Cartridge Helmet

Austrian Made CO2 Cartridge contains
up to 15% more gas than inexpensive cartridges
ISO, TUV and RoHS Certified

Proprietary Cartridge
Helmet protects cartridge
from puncture or thread
damage in seat bags and
toolboxes.

Recycled Linen Paper Labels
Insulate Better than Standard
and are optimized for
recyclability

Box Printed in USA on 100% recycled paper
Contains:
2 CO2 Cartridges + 2 Cartridge Helmets

Austrian Made CO2 Cartridge contains
up to 15% more gas than inexpensive cartridges
ISO, TUV and RoHS Certified

The number one cause of CO2 regulator failure is damage to the seal or threads caused by damaged or improperly formed CO2 Cartridge threads.

SILCA Proprietary Cartridge Helmets keep the cartridge threads from being damaged, keep the cartridge from puncturing in extreme situations, and allow the threads to be lubricated for optimal fit and seal when used.

CUSTOM PROGRAM

Insulating rings available in 12 Vivid Colors:

Red, White, Blue, Green, Lemon, Pink, Sky,
Grey, Cranberry, Tangerine, Chameleon, Aqua, Black
