

EUROPEAN BICYCLE MARKET

2009 edition

Industry & Market Profile
(2008 statistics)

FOREWORD

This document is the first edition of the European Industry & Market Profile, an economic study carried out by **COLIBI**, *the Association of the European Bicycle Industry* and **COLIPED**, *the Association of the European Two-Wheeler Parts' & Accessories' Industry*.

The document is based on figures provided by our member associations and data kindly put at our disposal by non-member countries.

It gives an overview of the European bicycle industry's activities (production and employment), relevant market data (sales) and highlights the economic bicycle activity in the member countries.

We wish to extend our sincere thanks to our member associations, the European Bicycle Manufacturers Associations, the Chambers of Commerce and Embassies for their valuable and much appreciated contribution in the compilation of this work.

BACKGROUND

COLIBI is the Association of the European Bicycle Industry; **COLIPED** is the Association of the European Two-Wheeler Parts' & Accessories' Industry.

The aim of the European associations is to promote the common interests of the European bicycle and bicycle parts' & accessories' industries.

COLIBI and **COLIPED** are the official spokespersons of the relevant European industry. As such, they keep in regular contact with European policy makers, European bicycle trade and cyclists' associations, the European standardization body CEN, the industry, mobility experts and the press.

COLIBI and **COLIPED** campaign for:

- the appointment of a European Bicycle Officer within the European Commission;
- the application of a reduced VAT rate on all bicycle products and services;
- a better recognition of the (potential of the) bicycle and cycling in European policies and the development of a bicycle (cycling) strategy by European policy makers;
- the introduction at European level of reliable and comparable statistics related to cycle infrastructure, costs & benefits of cycle use, traffic accidents, etc.;
- a better and easier access to European funding and financial means;
- the introduction in the allocation of European funding of effective criteria that serve sustainability;

The European associations fully support the European (EN) safety standards for bicycles.

COLIBI & COLIPED have a Liaison status within CEN TC 333 'Cycles' and are member of the Global Alliance for EcoMobility.

To promote the European bicycle parts' & accessories' industry, **COLIPED** annually organizes a joint European participation in the Taipei Cycle Show (Taiwan). Initiated in 1993, the joint European booth has known an ever increasing success. In 2008, 27 European bicycle parts' & accessories' manufacturers joined the COLIPED booth.

Our members are the national bicycle industry associations in 12 different Member States: Austria, Bulgaria, Denmark, Germany, Great Britain, Finland, France, Hungary, Italy, Portugal, Spain and the Netherlands.

THE EUROPEAN BICYCLE INDUSTRY

More than 20,000,000 bicycles are sold annually across Europe. This total exceeds that of any other means of mobility (cars, motorcycles etc.).

On average, European citizens own more bicycles than any other means of transport.

Via their national associations, **all major players on the European bicycle market** are represented within COLIBI & COLIPED.

The bicycle is:

- the most environmentally friendly, energy efficient and sustainable means of mobility;
- the cheapest means of mobility (no ownership- motorway or registration taxes, no insurances, no driving license or parking costs and no high service maintenance costs);
- the most healthy and social means of mobility;
- the most time-saving and silent mode in urban areas;
- the most accessible mode of transport;
- simply the best mobility mode in urban areas.

“Colibi represents the European bicycle manufacturers. In many factories the manufacturing consists of painting and assembling of bicycles.

Bicycle parts for assembly are sourced both in Europe and the rest of the world. For our customers it is important that the production of mainly medium to high-end bicycles is realized near the European home market. In this way deliveries to customers can be more flexible, e.g. the produced series can be smaller and the delivery times can be shorter.”

René TAKENS –COLIBI President

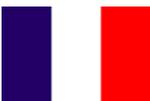

“Coliped is proud to represent a very lively, creative and sportive Industry like the European Bicycle Parts and Accessories: the development of always better performing European manufactured components is helping the global challenge towards the absolute excellence to be delivered to our enthusiast cyclists: the more the quality of bicycle parts improves, the more we help the wider diffusion of marvelous bicycles in Europe and worldwide. Our existence is strongly tied up with the health of the European bicycle producers, who -like us- mix very successfully some legendary historical brands with a very modern approach of: "Innovation and Quality First!" . The E-Bike sharp sales' increase proves the need of better equipment.

I am very honored to say: the European Bicycle Parts' and Accessories' Industry is here to stay!”

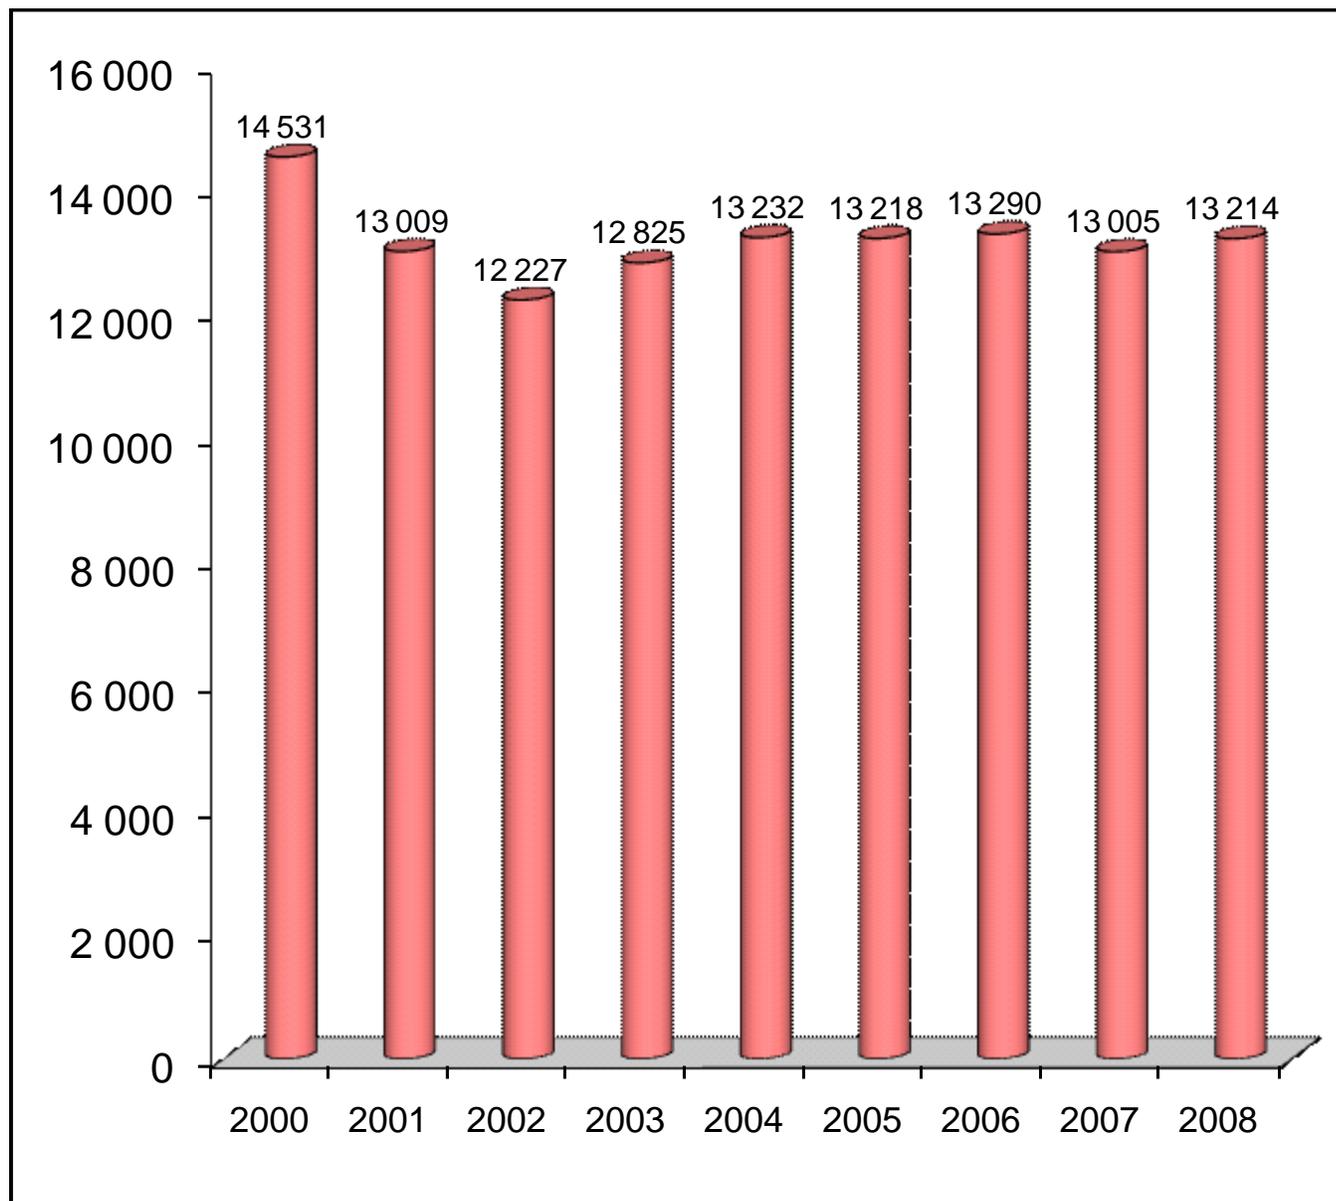

Moreno FIORAVANTI – COLIPED President

Evolution year/year-1 (%)		1.16	27.22	11.04	4.46	3.30	-1.32	5.33	-3.07

Comments : SALES = SALES TO CONSUMERS INCLUDING VAT

Parts and accessories sales are stable since 2004.

FRANCE - BICYCLE EMPLOYMENT 2000 - 2008

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Employment	1,910	1,555	1,450	1,450	1,400	1,400	1,350	1,200	1,150
P & A* Employment	1,339	1,239	1,180	950	900	850	600	600	550
Total	3,249	2,794	2,630	2,400	2,300	2,250	1,950	1,800	1,700

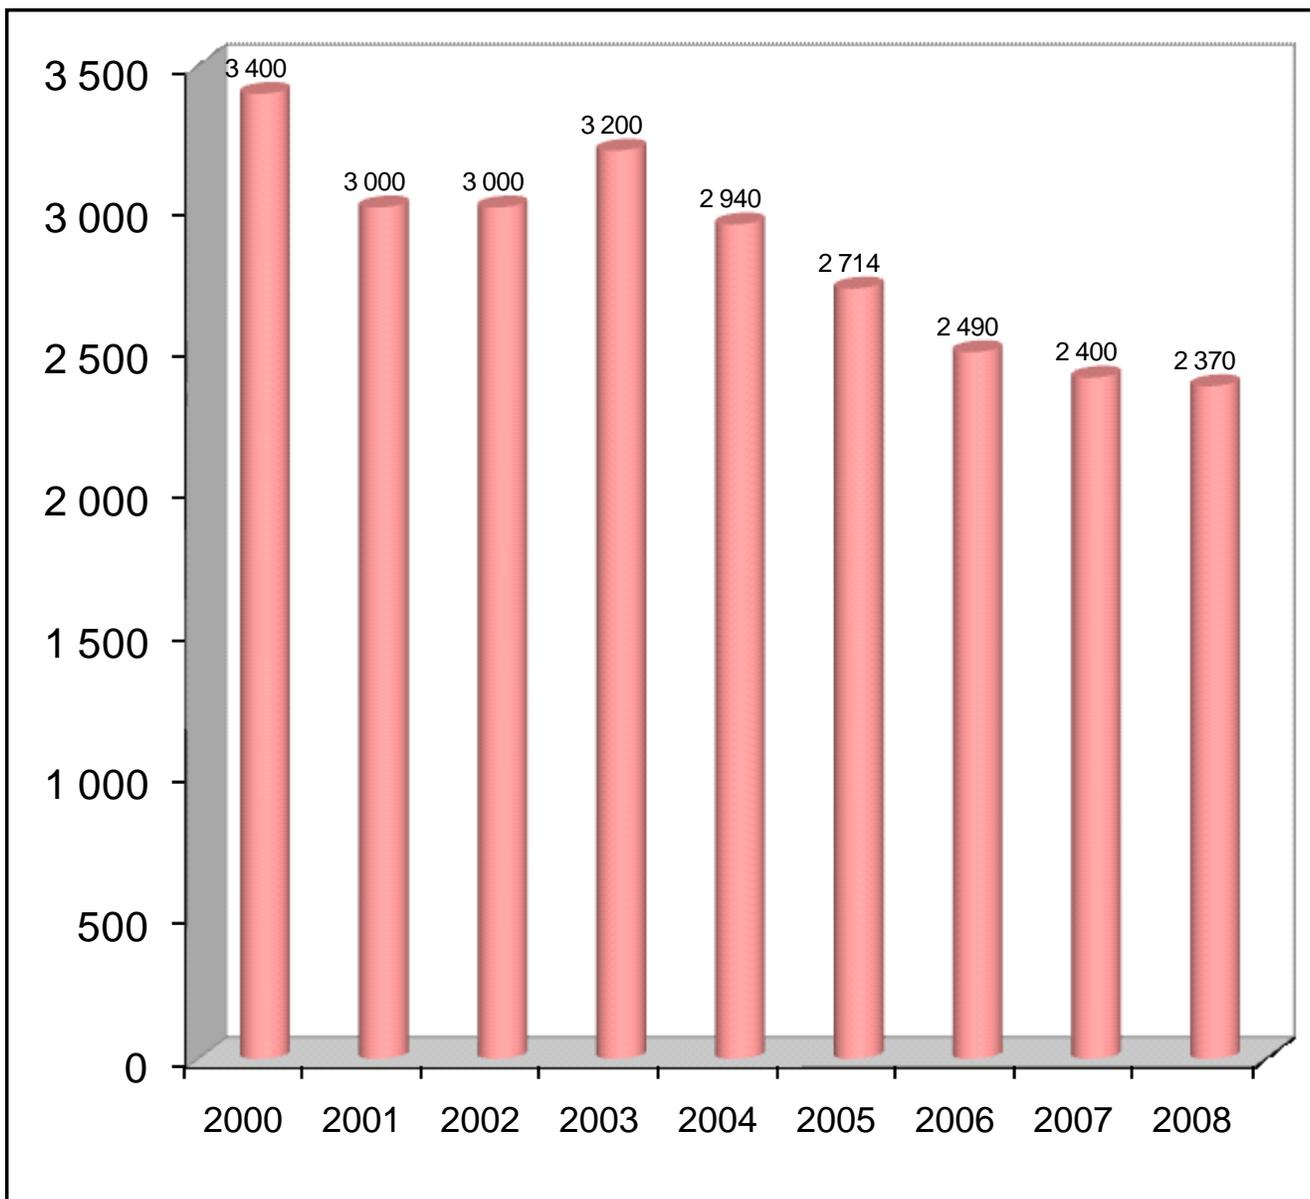

Comments :

The French cycle industrial employment is decreasing since 2000. In 2008, the number of employees decreased by 45% compared to 2000.

Germany

GERMANY - BICYCLE PRODUCTION (1,000 units) 2000 - 2008

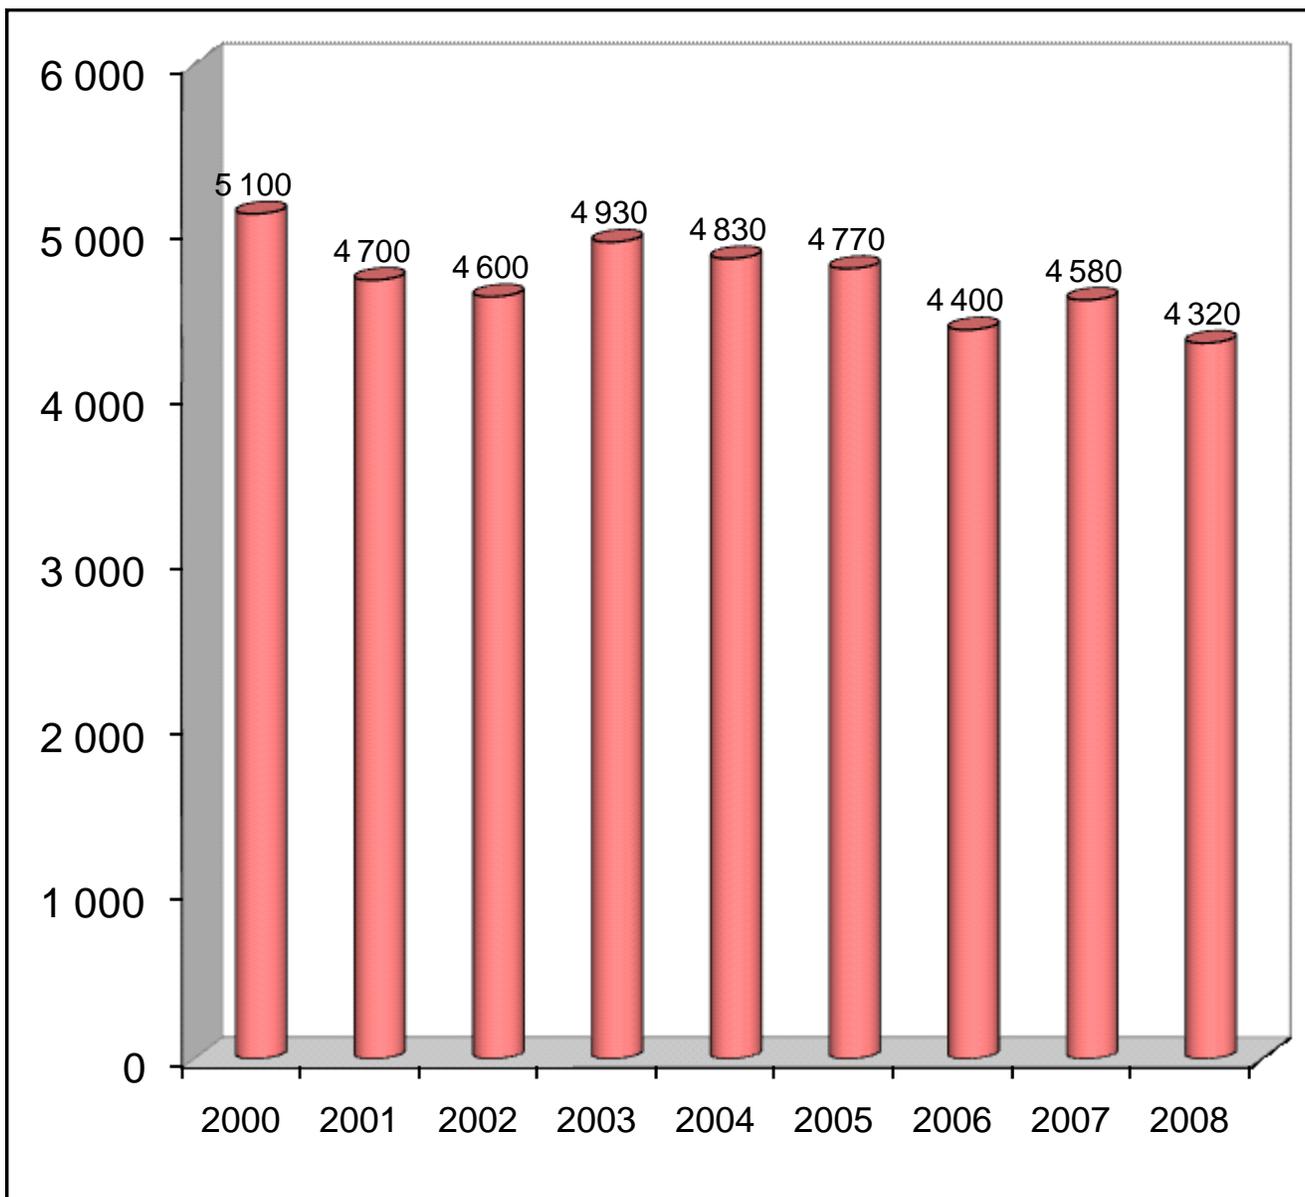

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Production (x 1,000)	3,400	3,000	3,000	3,200	2,940	2,714	2,490	2,400	2,370
Evolution year/year-1 (%)		-11.76	0.00	6.67	-8.13	-7.69	-8.25	-3.61	-1.25

Comments :

Since 2003, bicycle production is decreasing in Germany. Some of this production has been displaced to new European Member States; e.g. Hungary, Poland and Lithuania.

GERMANY - BICYCLE SALES (1,000 units) 2000 - 2008

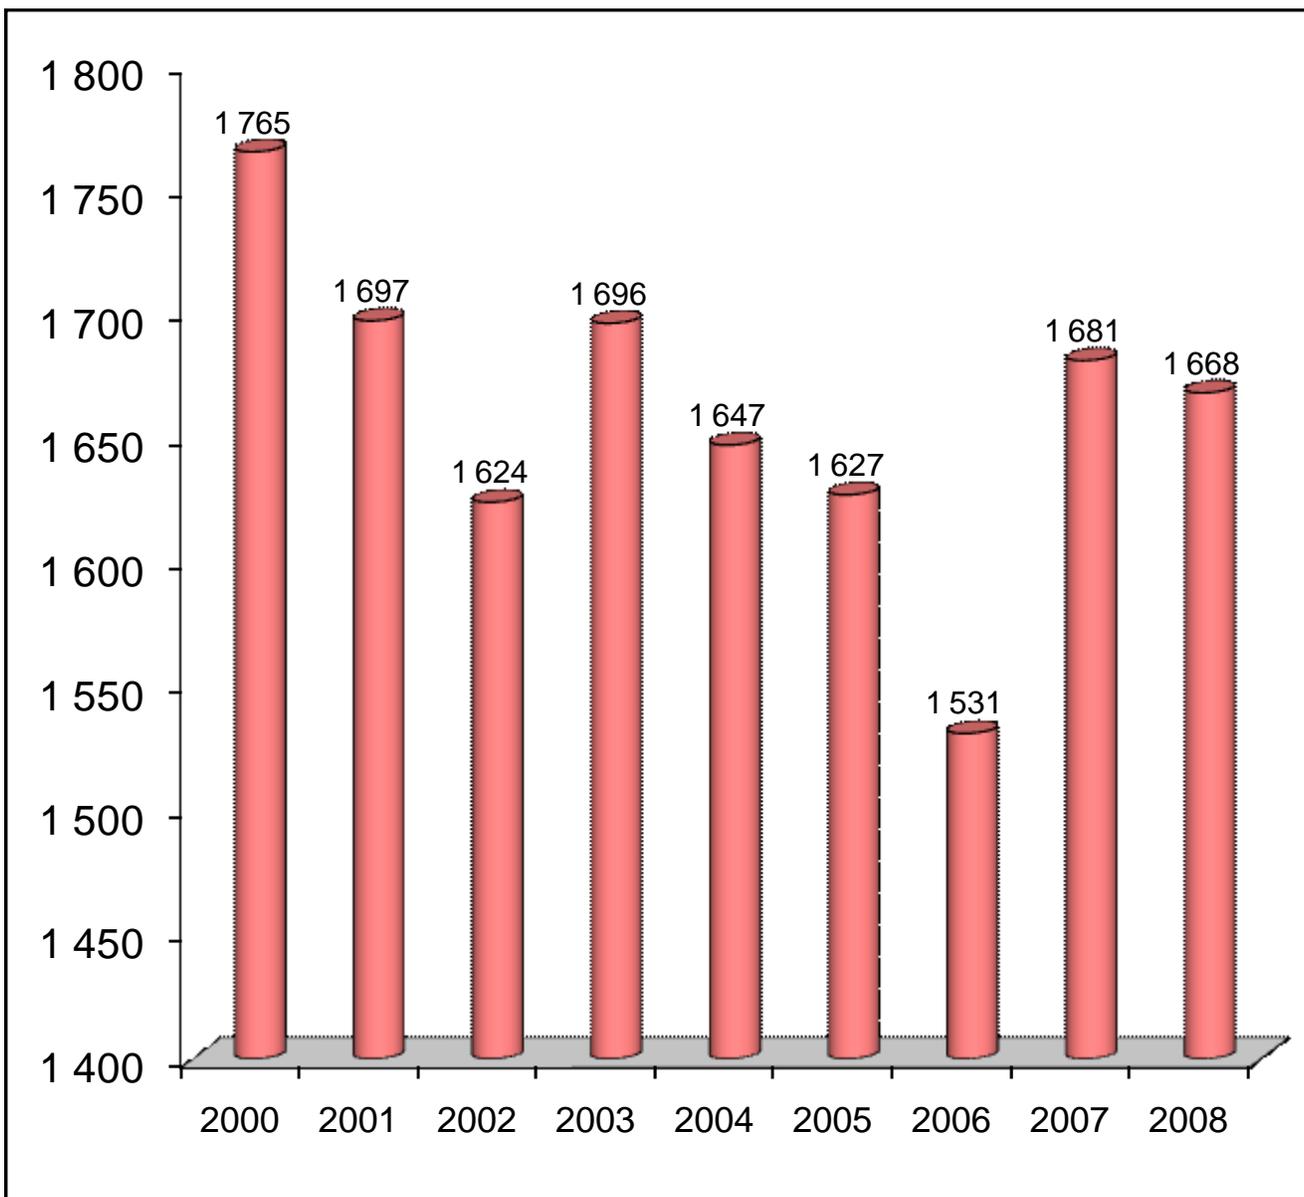

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Sales (x 1,000)	5,100	4,700	4,600	4,930	4,830	4,770	4,400	4,580	4,320
Evolution year/year-1 (%)		-7.84	-2.13	7.17	-2.03	-1.24	-7.76	4.09	-5.68

Comments : SALES = SALES TO CONSUMERS

The German bicycle market is relatively constant on a high level. Weather conditions still have a huge impact on bicycle sales.

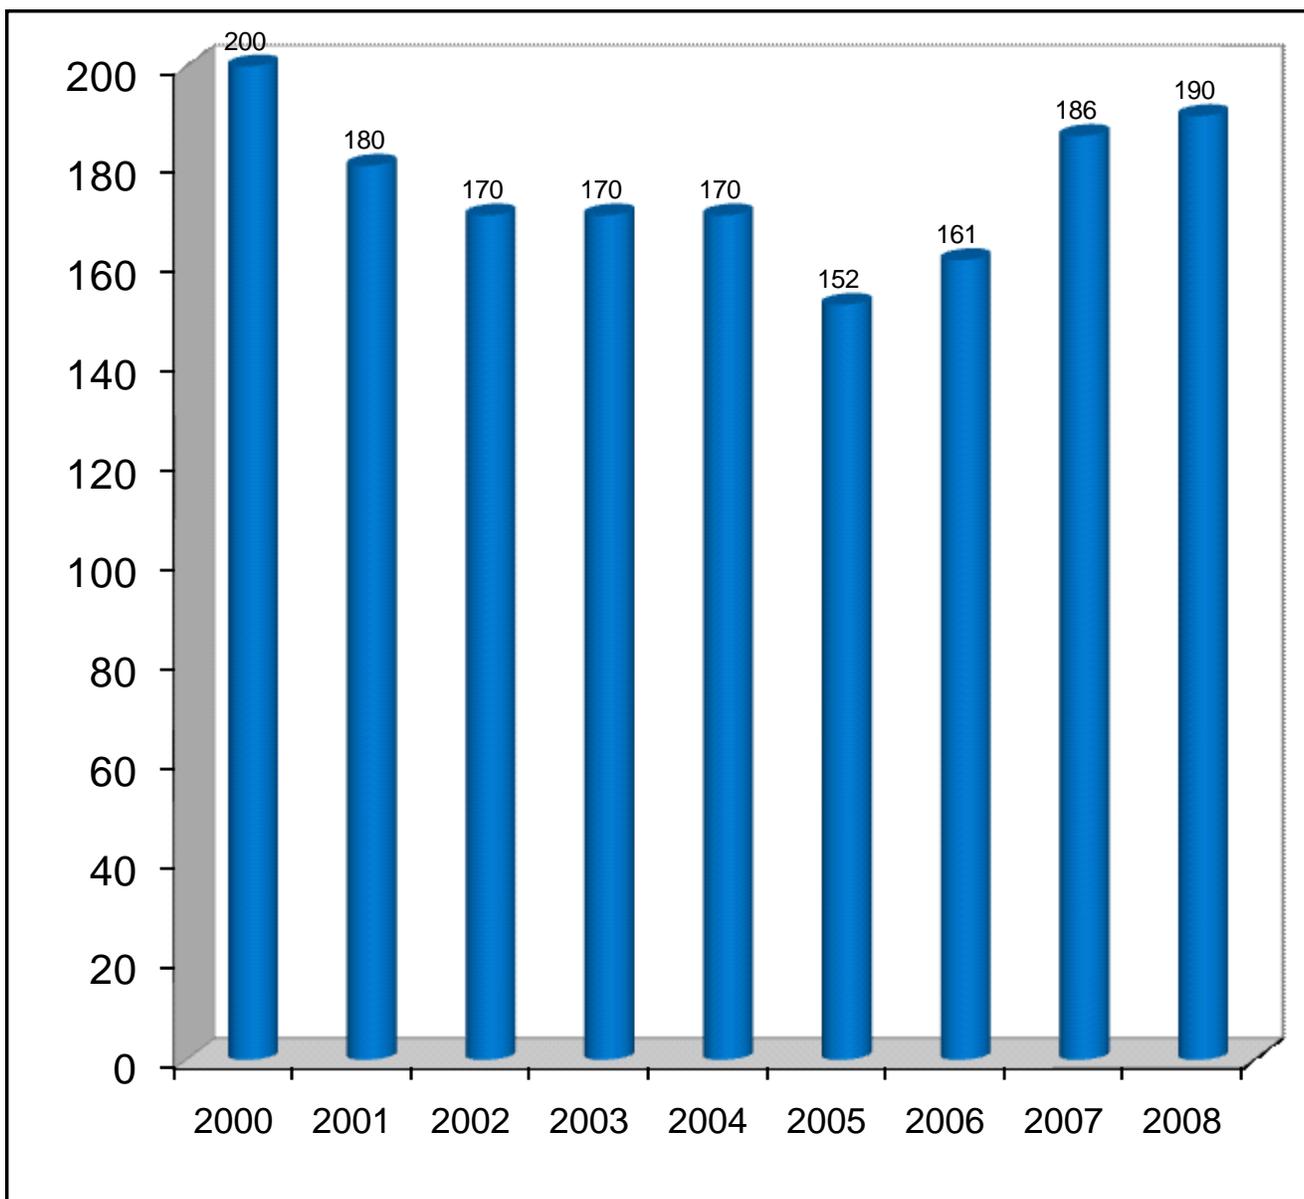

GERMANY - BICYCLE SALES (M€) 2000 - 2008

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Sales (M€)	1,765	1,697	1,624	1,696	1,647	1,627	1,531	1,681	1,668
Evolution year/year-1 (%)		-3.85	-4.30	4.43	-2.89	-1.21	-5.90	9.80	8.95

Comments : SALES = SALES TO CONSUMERS INCLUDING VAT

GERMANY - PARTS & ACCESSORIES PRODUCTION (M€) 2000 - 2008

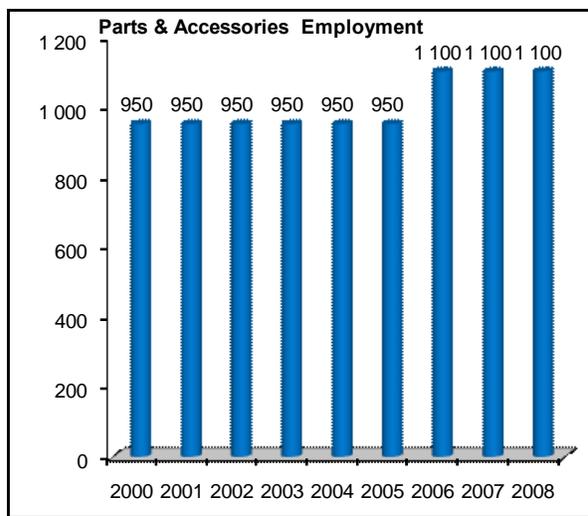

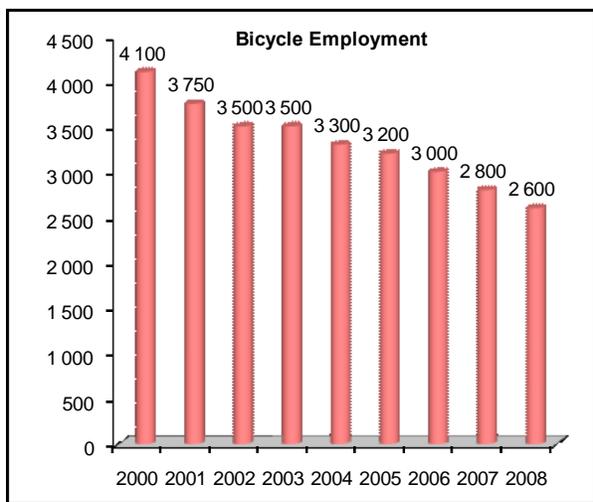

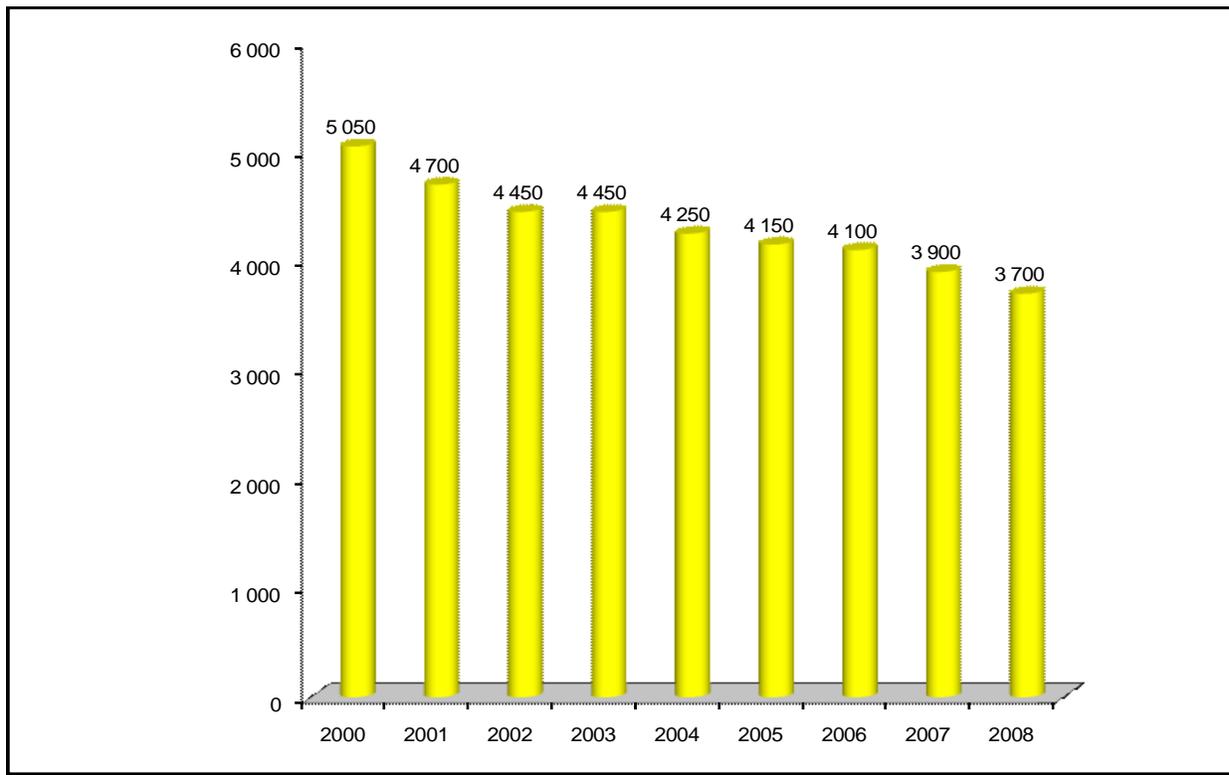

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
P & A Production (M€)	200	180	170	170	170	152	161	186	190
Evolution year/year-1 (%)		-10.00	-5.56	0.00	0.00	-10.59	5.92	15.53	2.15

Comments : VALUES EXCLUDING VAT

The P&A production went up in the last three years. This shows that the German innovative and high quality products have good chances in the world market.

GERMANY - BICYCLE EMPLOYMENT 2000 - 2008

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Employment	4,100	3,750	3,500	3,500	3,300	3,200	3,000	2,800	2,600
P & A Employment	950	950	950	950	950	950	1,100	1,100	1,100
Total	5,050	4,700	4,450	4,450	4,250	4,150	4,100	3,900	3,700

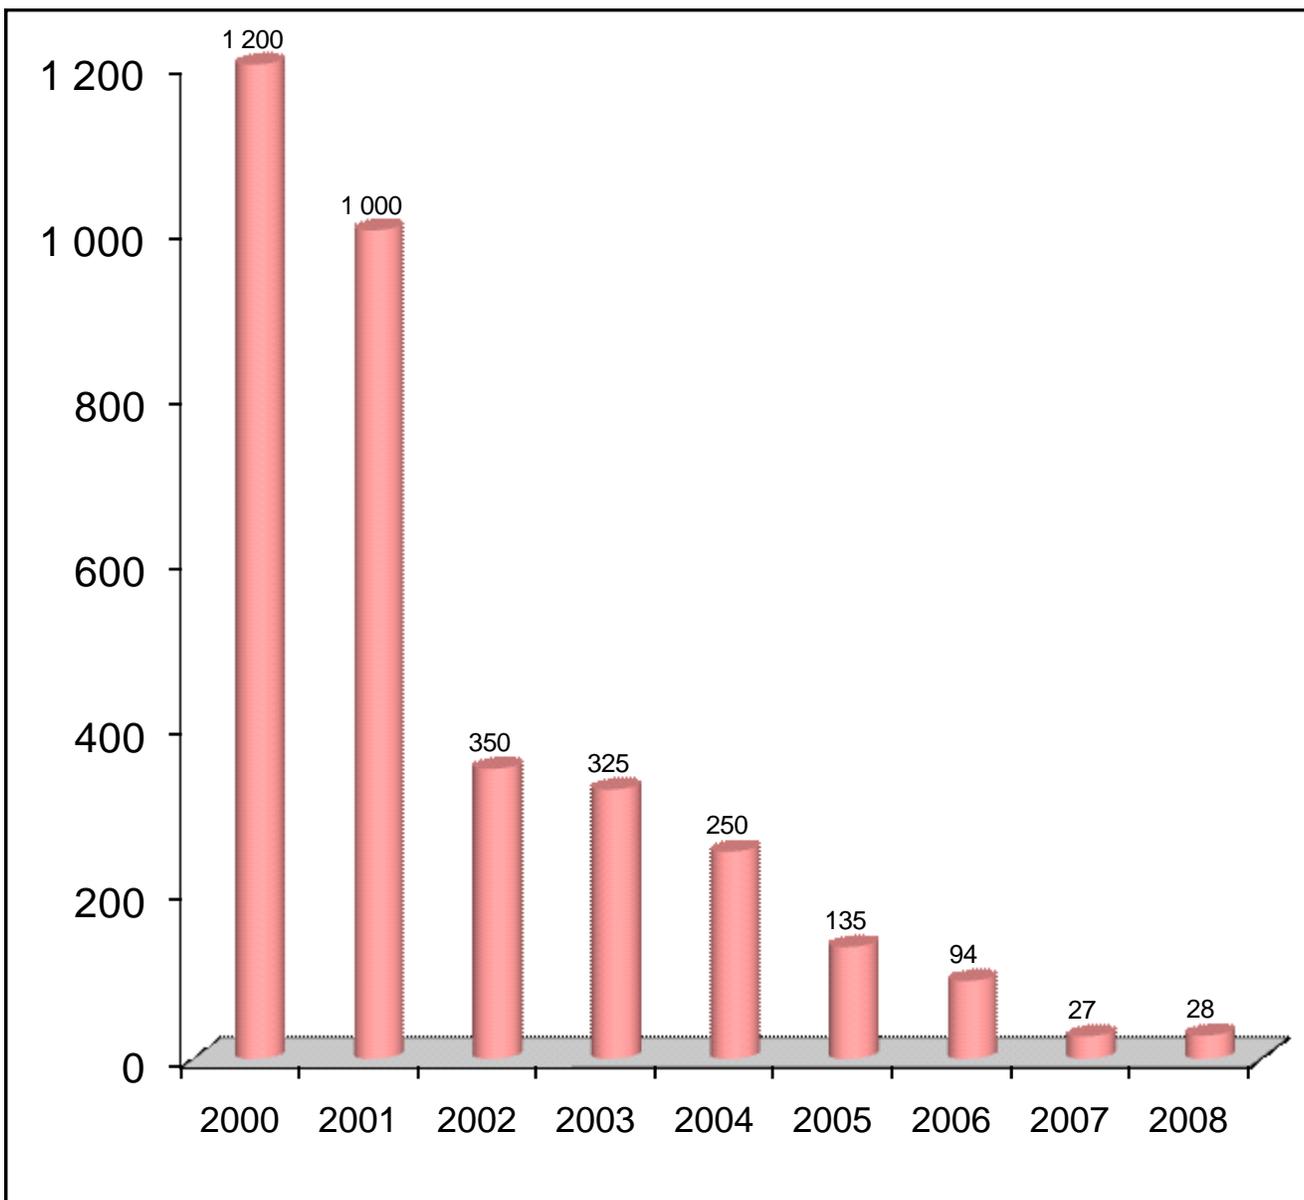

Comments :

Bicycle employment went down proportionate to the drop in bicycle production in Germany. The parts and accessories employment is slightly increasing since 2006 because of some higher production in Germany.

The Netherlands

THE NETHERLANDS - BICYCLE PRODUCTION (1,000 units) 2000 - 2008

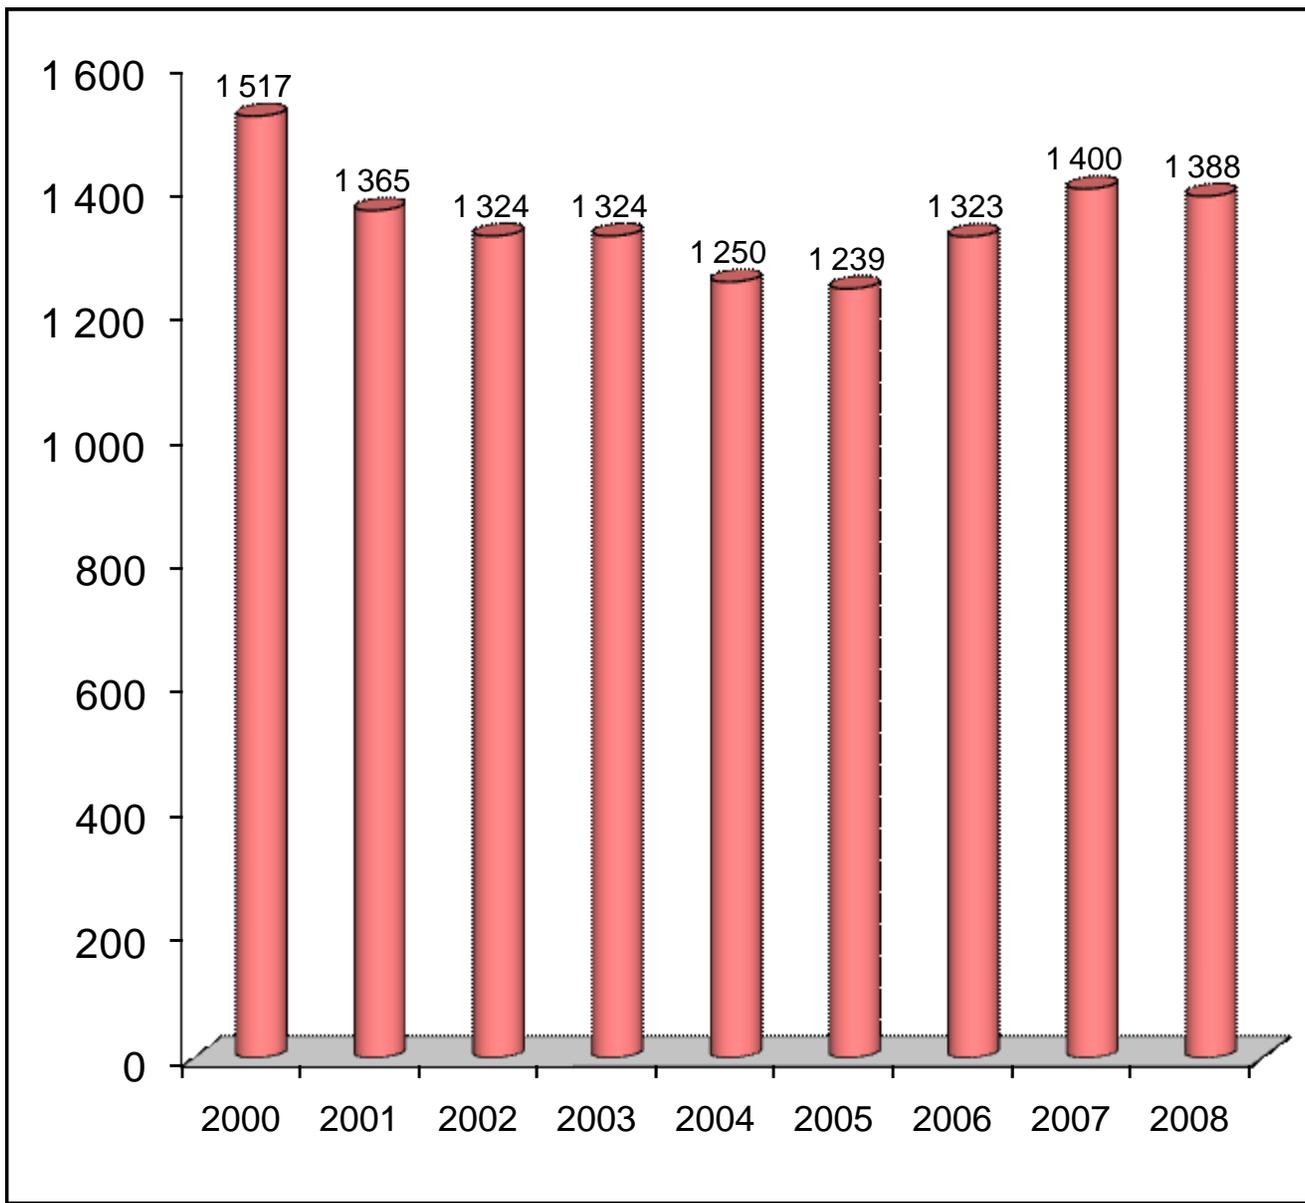

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
Bicycle Production (x 1,000)	1,159	1,046	1,082	1,045	882	894	967	972	1,129
Evolution year/year-1 (%)		-9.75	3.44	-3.42	-15.60	1.36	8.17	0.52	16.15

Comments :

The production figures are based on the official statistics coming from the yearly inquiry among bicycles manufacturers with more than 20 employees. In that context the total inland production can be raised with approximately 200,000 bicycles manufactured by companies with a lower employment rate.

THE NETHERLANDS - BICYCLE SALES (1,000 units) 2000 - 2008

Year	2000	2001	2002	2003	2004	2005	2006	2007	2008
