

SES 2.2 TUBULAR

The Smart ENVE System 2.2 Tubular is optimized for racing through the mountains. At 25mm deep and 27mm wide the SES 2.2 was developed in the windtunnel for maximum stability in gusty wind conditions and was developed for use with 25mm tires.

The new molded in brake track delivers equal braking performance in wet and dry conditions. In addition to the new brake track, the 2.2 is delivered with two sets of our new black brake pads.

	Front	Rear	Set
Weight:	281g	281g	562g
DT240:	499g	639g	1138g
DT180:	493g	598g	1091
DT350:	542g	683g	1225g
King:	494g	629g	1123g
Hole Count:	20	24	
Rim Diameter:	700c	700c	
ERD:	608mm	608mm	

Key Features:

- Improved textured brake track and new brake pads that increases braking power and provide consistent braking in wet weather
- Light weight
- High cross wind stability
- Developed for Team MTN-Qhubeka for use at the Tour de France
- Optimized for use with 25mm tires which provide more comfort, better traction and rolling resistance
